## 4-H Building Addition Project

### Building Completion February 2024

Sanborn County has a very active 4-H program and we have outgrown the current 4-H Building.

4-H Members in 2004 = 30 \*\* Today = 160+

4-H Shooting Sports in 2008 = 15 \*\* Today = 90

Construction is complete and **doubled the size of the 4-H building** so that we can better accommodate our activities including the 4-H shooting sports program that meets on Sunday afternoons and Tuesday nights from January-April, our annual Achievement Days, and many other 4-H activities.

We also have a need for current and potential community and school activities throughout the year including meetings and workshops, graduation receptions, showers, family reunions and get-togethers, Forestburg alumni reunion, school plays, FFA activities, marching band practice, cheerleading practice, and much more.
